

pure

storage

reimagined

an industry first

the pure manufacturing plant, here in the UK, is the first carbon zero manufacturing facility in our industry.

revolutionary production

By investing in the most modern manufacturing machinery currently available in Europe, we can boast the most efficient steel locker manufacturing facilities in the UK. Our world class production facility utilises the latest in data driven technology placing Pure firmly in the Industry 4.0 age. Our attention to detail and the speed of production achieved by our new tooling allows us to deliver a service not yet experienced in our marketplace.

carbon zero

We take our social and environmental obligations very seriously. By sourcing raw materials and energy responsibly and investing heavily in the latest production techniques we can minimise our carbon footprint and are proud to offer, what we believe is, the first carbon neutral manufactured steel locker in the world.

our product

The Pure range is the result of many years of experience in the personal storage industry. We know everybody's requirements vary, so we have an unrivalled ability to adapt to most needs. Each product in our range has been reimaged and redesigned utilising our cutting-edge technology to ensure we offer a product to suit your requirements.

covid safe

At the heart of our own anti-bacterial coating, Bioshell, is Powdura® ECO powder coating from Sherwin-Williams. This COVID safe powder coating provides customers a more eco-conscious anti-bacterial solution to product protection, colour and performance.

Carbon zero manufacture
Carbon zero for scope 1 and 2 emissions 2022.

Zero to landfill
We reduce, reuse, re-purpose and recycle all waste generated by our operation.

No single use plastic
We have eliminated single use plastic from all of our packaging.

Carbon zero company
We will achieve net zero by 2025.

COVID safe coating
Our Bioshell powder coating incorporates an anti-bacterial ingredient.

[magma/white]

pure design

Our innovative design provides a structurally strong locker which has been tested to comply with the locker testing standard BS4680:1990 yet has the aesthetics of an item of office furniture. Using the latest computer aided design facility directly linked to our production operation we can quickly adapt to changes in locker trends and any specific requirements.

pure benefits

Pure lockers can be positioned side by side, without the unsightly 'creep' gaps suffered by other brands. Our sidewalls have been developed to ensure creep is minimised, offering a far superior aesthetic.

A structural plinth between compartments for security, along with our unique shelf fixing mechanism provides an industry leading durable and robust locker.

Our locker frame and top cover are designed to be interlocked, reducing fixings and offering a significantly increased security threshold.

With through door locking, extra protection is provided at what would traditionally be the locker's weakest point, not any more.

Our in-door vents have been designed and developed to maximise airflow through an individual locker compartment while adding a stylish touch.

Our all-metric sizes offer an alignment with current ff&e design parameters.

Our lock offer will provide end-users with industry leading security options.

british made

Manufactured in our 64,000 square foot factory strategically located on Deeside in North Wales, we have easy access to the main arterial routes to all parts of the UK and Europe. We are proud to be part of the 'MADE IN BRITAIN' movement.

pure design

We've re examined every detail and made improvements at every turn. Here's an example of how the little things count. By simply creating an indent for the rivet of an adjoining locker to locate, we've removed the creep that so often catches planners out when specifying quantity for a given space.

The visible gap between adjoining traditional lockers can be up to 4mm wide.

the pure solution

Our innovative solution is a simple rivet pocket and an offset rivet allowing lockers to sit flush with zero gap.

pure

workwear

We know that not everybody's needs are the same and some customers need a more specialised locker, so we have developed a range of lockers specifically for the leisure, education, healthcare and food industries. The range includes the popular Clean & Dirty, Janitor's/Uniform, Twin/Two-Person lockers. We can also introduce our reimagined Z locker offering two separate compartments for each of two users, one hanging and one shelf compartment.

clean & dirty

Includes top shelf and two separate hanging compartments each with a coat hook.

integral sloping tops

Clothing, rubbish and food left on top of lockers can be both a health and fire hazard. Our innovative sloping top design eliminates that unsightly gap at the top of the locker that can allow dirt and bacteria to accumulate. Not only does this design look better but it will be of particular benefit in sterile environments. Retro fit sloping tops also available.

Not all changing rooms have the available space to accommodate separate changing benches. To contend with this, we can supply a combined bench seat and stand. Benches have solid wood slats, can be manufactured in multiple locker widths and have the added benefit of allowing cleaning under the lockers.

pure shield - sgl

Where appearance counts or locker doors need to withstand the rigours of heavy use, we have a range of solid grade laminate (SGL) door lockers. Our range of laminate surfaces and colours are made to match cubicle or furniture finishes. The sturdy composition of these doors allows the surface to withstand a great deal of punishment in demanding environments such as schools, universities, leisure facilities and many more.

pure benefits

The perfect combination of strength and aesthetics, these lockers have become widespread in educational and leisure applications where lockers are expected to both look good and withstand the rigours of severe use. Self closing hinges minimise damage to property and person, through door fixing provides a strong and secure door fastening. Multiple locking options from a simple padlock through to remote locker rental allocation and revenue. With a huge variety of colour finishes available through laminate manufacturers, the design possibilities are virtually limitless.

Science

pure leisure - aluminium (12mm sgl)

(12mm sgl)
solid grade laminate

(10yr)
guarantee*

This range of lockers has been designed to meet the specific needs of the leisure market. We understand the need to marry the two requirements of appearance and practicality in a challenging environment.

pure benefits

Robust self closing hinges, eliminate the danger of users colliding with open doors.

Aluminium bodies will not corrode in wet conditions, and solid grade laminate (SGL) doors and cover panels are not only highly water resistant, but also highly resistant to malicious damage.

Our extensive range of dry and wet area locks will protect users personal property. Whether it's key, padlock, coin operation or RFID swipe card we have a solution.

In conjunction with a wide range of accessories we can design, manufacture and install a full changing area scheme. We are not limited to a specific laminate manufacturer; we can provide doors that match cubicles or vanity fittings.

Especially designed for 'extreme' environments, these hard wearing polyethylene lockers will withstand the most demanding conditions where conventional steel lockers would not be suitable.

pure benefits

Injection moulded from hard wearing, impact resistant plastic, these lockers will never rust or corrode. Adhering to our environmentally responsible principles, these lockers are fully recyclable. Designed for exposed outdoor conditions, the lockers are vandal resistant. The modular design permits a wide variety of configurations to fit into most spaces. We have an extensive range of different locking options that will suit most security needs.

pure and secure

wet area locks available

Standard cam lock
Our standard cam lock features 3000 serial combinations. Two keys are supplied with this lock.

- Available for:
- Steel door lockers
 - Steel body - SGL doors
 - Steel body - MFC doors
 - Plastic body - plastic doors
 - Aluminium body - SGL doors

Standard hasp lock
This stylish hasp allows the use of a padlock with a maximum shank diameter of 7mm, minimum 5mm. Padlock sold separately.

- Available for:
- Steel door lockers
 - Steel body - SGL doors
 - Steel body - MFC doors
 - Plastic body - plastic doors
 - Aluminium body - SGL doors

Premium cam lock with plastic key fob
Our high security premium cam lock features double entry key access and offers a higher level of security.

- Available for:
- Steel door lockers
 - Steel body - SGL doors
 - Steel body - MFC doors

Secure hasp lock
This hasp offers a higher level of security over the standard hasp and also adds a touch of style to your locker.

- Available for:
- Steel door lockers
 - Steel body - SGL doors
 - Steel body - MFC doors
 - Aluminium body - SGL doors

4 digit re-programmable lock
Available set as **private mode**, this 4 wheel mechanical combination lock features up to 10,000 unique combinations. For additional security the combination lock is also available with an optional 'twist resist' feature.

- Available for:
- Steel door lockers
 - Steel body - SGL doors
 - Steel body - MFC doors
 - Plastic body - plastic doors
 - Aluminium body - SGL doors

4 digit re-programmable lock
Available set as **public mode**, this 4 wheel mechanical combination lock features up to 10,000 unique combinations. For additional security the combination lock is also available with an optional 'twist resist' feature.

- Available for:
- Steel door lockers
 - Steel body - SGL doors
 - Steel body - MFC doors
 - Plastic body - plastic doors
 - Aluminium body - SGL doors

Digital combination Lock
With a solid zinc alloy housing, 10-digit keypad, a secure key override as standard, the Zenith digital lock is the perfect choice for a wide variety of applications.

- Available for:
- Steel door lockers
 - Steel body - SGL doors
 - Steel body - MFC doors
 - Aluminium body - SGL doors

RFID contactless digital lock
High strength Grivory makes this lock very robust, the lock can be used independently or paired with existing wireless systems. Steel override key available to bypass the contactless locking feature when immediate supervisory access is necessary.

- Available for:
- Steel door lockers
 - Steel body - SGL doors
 - Steel body - MFC doors
 - Aluminium body - SGL doors

£1 coin/token return or retain
These self-service locks are simple and easy to use. This lock is available in two modes; **coin return** and **coin retain** (retain if used with the additional Coin box, opposite). In both modes the lock is controlled using a master key, available separately.

- Available for:
- Steel door lockers
 - Steel body - SGL doors
 - Steel body - MFC doors
 - Plastic body - plastic doors
 - Aluminium body - SGL doors

Optional coin retain box
The Coin Box P004 attaches to the rear of the coin operated lock and retains any coins that are used to operate the lock.

- Available for:
- Steel door lockers
 - Steel body - SGL doors
 - Steel body - MFC doors
 - Plastic body - plastic doors
 - Aluminium body - SGL doors

£1 door front coin return lock
£1 coin return lock offers a simple and cost effective solution for multiple occupancy locker/compartments. Ideal for use in changing rooms and general public areas. Can be retro fitted to most Pure locker doors. Lock supplied with two keys. Suitable for dry environments only. Master key available.

- Available for:
- Steel door lockers
 - Steel body - SGL doors
 - Steel body - MFC doors
 - Plastic body - plastic door

RFID contactless circular lock
This is an environmentally friendly, low energy system using just one standard, easy to change, 1.5V AA battery. The transponder is available in cards, tags or wristbands. All transponders are easy to programme to master or user. Suitable for dry environments only. Master key available.

- Available for:
- Steel door lockers
 - Steel body - SGL doors
 - Steel body - MFC doors
 - Plastic body - plastic door
